

Ruchita Senjaliya

REACT & REACT NATIVE DEVELOPER

senjaliyaruchita@gmail.com | +91 95108 68349 | Junagadh, India | [LinkedIn](#) | [GitHub](#)

React and React Native developer with 2.5+ years building scalable web and mobile applications serving millions of users. Enhanced rendering speed by 30% and reduced API latency by 25% through advanced state management using Redux Toolkit, Redux Saga, and React Query. Integrated REST APIs and restructured front-end architecture to keep codebases clean and testable. Focuses on maintainable solutions that improve user experience and generate measurable business growth.

EXPERIENCE

React & React Native Developer

2023– Present

TechRover Solutions

- Engineered three cross-platform React Native apps with Redux Toolkit, Redux Saga, and React Query for Android and iOS.
- Consolidated over fifteen RESTful APIs, enhancing data synchronization, boosting application performance, and elevating user experience.
- Optimized performance by creating reusable components and applying efficient state management, enabling stable production releases.

Frontend Developer

Jan, 2023 – Jun, 2023

Solute Technolabs LLP

- Built responsive web interfaces with React.js, HTML5, CSS3, and JavaScript, guaranteeing cross-browser compatibility.
- Integrated REST APIs to render dynamic data, improving overall user interaction and satisfaction.
- Crafted reusable UI components that significantly reduced development effort across multiple screens.

PROJECTS

INTELLIGENT – AI CHAT PLATFORM

- Integrated real-time streaming AI responses with Markdown rendering, supporting up to 9 listed technologies to enable interactive chat features.
- Secured workflow by implementing protected routes, OAuth, and Google Sign-In, providing two authentication methods for enhanced safety.

AGROSMART – FULL-STACK AGRICULTURAL COMMERCE & LEDGER PLATFORM

- Designed full-stack agricultural commerce platform enabling farmers to manage purchases and digital credit using 11 integrated technologies.
- Delivered shopping cart, order management, and checkout modules supporting three payment methods with secure transaction workflows.

HEALTHCARE MOBILE PLATFORM

- Developed cross-platform mobile app for health activity tracking, medication reminders, appointments, and caregiver communication using React Native.
- Built reusable UI components and coordinated with cross-functional teams to release production-ready updates on schedule.

EDUCATION

Bachelor of Engineering

Gujarat Technological University – 2019 – 2023 · CGPA: 9.35

Secondary School

Nobel High School – 2017 – 2019 · High school diploma

TECHNICAL SKILLS

HTML, CSS, JavaScript (ES6), Typescript, React JS, React Native, Next JS, Redux-saga, React Query, React Router, Tailwind CSS, Bootstrap, Styled component, Framer Motion, Chakra UI, Git, Swagger, VS Code, Node JS, Express JS, PostgreSQL, Firebase Authentication, REST API, Angular

CERTIFICATIONS

- React – The Complete Guide (Hooks, React Router, Redux), Udemy
- JavaScript Algorithms and Data Structures, freeCodeCamp
- Claude 101 Certification, Anthropic
- Claude Code Certification, Anthropic
